VICTORY CHUKWUMA

Product Designer | Product Strategy, UX and Design Systems

Lagos, Nigeria | +234 810 625 8307 | victorychukwuma2@gmail.com | designwithvee.framer.website | LinkedIn

PROFILE

Product designer at Skydd and founder of LOQD, working across product strategy, complex user flows, interface systems, research, prototyping and delivery. I turn ambiguous product and operational problems into clear experiences that teams can build.

EXPERIENCE

Product Designer | Skydd **Jul 2025 - Present**

Designing Skydd's consumer web experience around a combined saving and protection proposition for Nigerians.

- Created connected Home, FAQ and About experiences, translating complex financial-protection messaging into a clear, human and responsive journey.
- Extended the established typography, colour, button and component system to keep new pages consistent and implementation-ready.

Founder | LOQD **Apr 2026 - Present**

Building an event-storage service across product strategy, customer experience, physical operations, hardware and a digital MVP.

- Conducted 9 attendee interviews and converted trust, pricing, access and retrieval findings into product principles and V0 requirements.
- Defined customer, counter and runner workflows, offline fallbacks, custody checkpoints, operational metrics and a 125-space pilot direction.

Co-Founder and Product Designer | Juju Games **May 2023 - Present**

Co-founded the studio and led interface design across Vodou: A Space Odyssey, Boju Boju and Payton Ville, covering HUDs, inventory, quests and reusable visual systems.

Product Designer | The Cypha **Feb 2024 - Feb 2025**

Designed SKRHYB's dual-user CMS and dashboard, led GLOBLSERVICE product design and created a reusable system spanning three platforms.

Earlier experience: Product Designer, Vroom Ng (2023-2024) | Product Designer, Hydrogen HR (2023)

SELECTED PRODUCT WORK

MEELOW Designed a mobile safety and fintech platform spanning Smart Check-In, live journey monitoring, geofencing, automated alert escalation, wallet and payment experiences, cards, support and administrative operations.
COUPON Mapped and audited end-to-end consumer and admin fintech flows across investments, portfolios, KYC, transactions, withdrawals, rollovers and support, including conditional paths, system states, error recovery and developer-readable navigation.
